"A carefully argued and convincing case." ?Ann Levin, Associated Press Do antidepressants actually work Depression is more than being sad or feeling grief after a loss. Depression is a medical condition, just like diabetes or heart disease. Day after day, depression affects your thoughts, feelings, physical health and behaviours. This is a list of notable people who have, or have had, major depressive disorder. A number of well-known people have had the disorder. While depression was sometimes seen as a shameful secret until the 1970s, society has since begun discussing depression more openly.
