

Download American Adulterer Jed Mercurio

American Adulterer looks closely at John F. Kennedy's lecherous tendencies while in office. The book tries to make the case that JFK cheated on his wife because he had difficulty concentrating, developed headaches, and in general, had a hard time getting his presidential work done if he didn't have a lot of sex with a lot of different women. This is a shocking book that presents a revered and venerated American president as a serial adulterer and compulsive sex addict, unfit for national office and a substantial national security risk. I only gave it three stars, despite being well written, due to its very tawdry content and also to a lack of literary value as basically a lurid gossip tale. For any readers out there who weren't already aware of John F. Kennedy's tawdry private life, Jed Mercurio's American Adulterer paints a pretty picture.
