

Download An Invitation To Social Construction

The social construction of gender is a notion in feminism and sociology about the operation of gender and gender differences in societies. According to this view, society and culture create gender roles, and these roles are prescribed as ideal or appropriate behavior for a person of that specific sex. Social constructionism is a theory of knowledge in sociology and communication theory that examines the development of jointly constructed understandings of the world that form the basis for shared assumptions about reality. The Social Construction of Reality: A Treatise in the Sociology of Knowledge - Kindle edition by Peter L. Berger, Thomas Luckmann.
