Questionnaire After the careful formulation of research questions/hypothesis and sample selection next step in research chain is developing data collection instrument. Richard Paul with Gerald M. Nosich. Abstract This paper, co-authored by Richard Paul and Gerald Nosich, was commissioned by the United States Department of Education, Office of Educational Research and Improvement of the National Center for Education Statistics. Several test elements use JMeter properties to control their behaviour. These properties are normally resolved when the class is loaded. This generally occurs before the test plan starts, so it's not possible to change the settings by using the `__setProperty()` function. The Gateway to Up-To-Date Information on Integrated 'Whole Building' Design Techniques and Technologies. The goal of 'Whole Building' Design is to create a successful high-performance building by applying an integrated design and team approach to the project during the planning and programming phases.
