Dandelion Moon is a continuation of book 1 (in my opinion). The exception being, the focus of book two is Myra and Weston rather than Joy and Zack; however, Joy and Zack are very much part of this book (thankfully) - and we see their happily-ever-after. Weston was not very likable in book 1, but that all changes in book 2. He is head-over-heels in love with Myra and will do anything to help and protect her, except lie about his faith or lack thereof. dandelion moon book 2 of the hallowed halls series volume 2 Tue, 18 Dec 2018 20:19:00 GMT
