Jack Liebersohn - Mit.edu the geography channel of house price appreciation: did the decline in manufacturing cause the housing boom? with greg howard changing locational preferences contributed significantly to the Rise and Resurrection of the American Programmer Decline and Fall of the American Programmer is a book written by Edward Yourdon in 1992. It was addressed to American programmers and software organizations of the 1990s, warning that they were about to be driven out of business by programmers in other countries who could produce software more cheaply and with higher quality.
