

Download Geometry Algebra Properties Answers

This video is a description of four properties that are used in two-column proofs in Geometry. These properties are the bridge from Algebra to Geometry so will seem very familiar to you. If you plug $x = -12$ into the original equation given, you'll get the same answer on BOTH sides of the equation. In other words, you create a BALANCE, which is the true definition of the word equation anyway. Don't Practice Until You Get It Right. Practice Until You Can't Get It Wrong. Geometry Questions and Answers. Get help with your geometry homework! Check out the answers to hundreds of geometry questions, explained in a way that's simple for you to understand.
