Download Green Infrastructure Incorporating Biodiversity Environments

"This is a very thoughtful, timely and comprehensive book. If our cities are to be considered as being truly sustainable then the integrated provision of green spaces will be a vital component of that sustainability. Green Infrastructure will help us to do just that." – Richard Sabin, Director, Living Green City, UK.Manfred Koehler, Professor of Landscape Ecology, University of Applied Sciences Neubrandenburg, Germany, President of the World Green Infrastructure Network. "This is a very thoughtful, timely and comprehensive book.Incorporating Plants and Enhancing Biodiversity in Buildings and Urban Environments. Green Infrastructure.
