

Download High Performance Marine Vessels

The small and portable 8 feet 10 inch Dana model by Newport Vessels is perfect to use as a versatile tender for all things. The Dana model inflatable boat has sports the extra large 18 inch tubes which makes it stable and maneuverable. Beta Marine provides a wide range of engines, all based on the rock-solid Kubota engine core. Our engines are used in a wide variety of applications including repowering, new boat manufacture, sailboat, fishing vessels and trawlers. New propulsion systems developed by MTU – for cleaner and stronger vessels that can transport more passengers. Juliet Marine Systems is a marine technology company dedicated to advancing high performance watercraft. We develop and commercialize innovative marine technologies to rapidly deliver new products and capabilities to defense and commercial markets.
