

Download History Harley Davidson Motorcycle Engines

Harley-Davidson Touring and Dyna models came powered by the new Twin Cam 88 engine in 1999. A counter-balanced Twin Cam 88B followed a year later for the solid-mount Softail models. Harley-Davidson offers factory tours at four of its manufacturing sites, and the Harley-Davidson Museum, which opened in 2008, exhibits Harley-Davidson's history, culture, and vehicles, including the motor company's corporate archives. When you think about Harley-Davidson motorcycles, it's most often about the V-Twin engines, the retro-styling and the inescapable sound. Many forget that the motor company manufactured a lightweight two-stroke engine and runabout motorcycle for 15-years. Harley-Davidson is probably the most famous motorcycle manufacturer in the world and is based in the United States, Milwaukee, Wisconsin. Even though they consider 1903 as their starting year, they ...
