To get started, choose a book below and click Submit. You can also search a book's contents by keyword. Access everything you need for James Stewart Calculus—from textbook supplements, to web resources and homework hints.

CONTENT AREA. Reading – Understanding the sounds of language, concepts of print, letter knowledge, decode symbols to develop reading skills; Math – Build concept knowledge such as problem solving, comparison, time, space, and number

Description: This course will cover advanced numerical techniques for solving PDEs, with a particular focus on fluid dynamics. This includes advection-diffusion-reaction equations, compressible and incompressible Navier-Stokes equations, and fluid-structure coupling.
