

Download Patient Centered Medicine

“Patient-centered medicine” is the newest salvo in these debates. Funding and Disclosures Disclosure forms provided by the author are available with the full text of this article at NEJM.org. Patient-centered medicine encompasses all facets of medicine and all healthcare providers. Naturopathic, osteopathic, and allopathic medicine are combined to provide patients with the level of medical intervention they need, when they need it. All medical therapies and modalities are utilized in the process of helping restore a patient’s health. Illustrating patient-centered concepts through case studies, Patient-Centered Medicine provides clear, inspirational messages about the instrumental role of patient-centered clinical care for both students and clinicians in all health care environments. Patient Centered Medicine LLC is a naturopathic business that has brought together a team of independent professionals, each with their own business, to bring the best possible health care and services to patients and clients.
