

# Download Pseudocode Exercises And Answers

Tour Start here for a quick overview of the site Help Center Detailed answers to any questions you might have About Features. Develops a practical, realistic understanding of computer science. This text follows a bottom-up arrangement of subjects that progresses from the concrete to the abstract—an order that results in a sound pedagogical presentation in which each topic leads to the next.

## 6.1 Supervised Classification.

Classification is the task of choosing the correct class label for a given input. In basic classification tasks, each input is considered in isolation from all other inputs, and the set of labels is defined in advance.

File HelloWorld.class must be in the directory org/tij/exercises. Then you can run the example with `java -cp . org.tij.exercises.HelloWorld` – Andrea Luciano May 7 '14 at 23:58
