The Professor was the first novel by Charlotte Brontë. It was originally written before Jane Eyre and rejected by many publishing houses, but was eventually published posthumously in 1857. The book is the story of a young man, William Crimsworth. It describes his maturation, his loves and his eventual career as a professor at an all-girl's school. The story is based upon Charlotte Brontë's experiences in Brussels, where she studied as a language student in 1842. The Professor, the first novel Charlotte had written, was published posthumously in 1857. "A man is master of himself to a certain point, but not beyond it." Orphaned in infancy, William Crimsworth had been receiving meager support from his deceased mother's aristocratic brothers. The Professor is not Charlotte Bronte's best work, but it has a good plot. This book resembles Agnes Grey by Anne Bronte. At first, when reading, I thought that this book was about a women, but it wasn't, it was about a man.
