The AGA cooker is a heat storage stove and cooker, which works on the principle that a heavy frame made of cast iron can absorb heat from a relatively low-intensity but continuously burning source, and the accumulated heat can then be used for cooking. AGA cooker – a heat storage stove and cooker, which works on the principle that a heavy frame made from cast iron components can absorb heat from a relatively low-intensity but continuously-burning source, and the accumulated heat can then be used when needed for cooking. Long, low-temperature slow-roasting is my favorite way to cook poultry, and it works particularly well for turkeys. Done right, slow roasting yields a marvelously tender bird with meat that literally falls off the bone, making it a cinch to carve. Easy Shed Plans 4 X 8.
